

VYQ Referral Partner Program

Help clients pause before money moves.

A partner pathway for accountants, bookkeepers, fractional CFOs, controllers, accounts-payable professionals, attorneys, cybersecurity advisors, insurance professionals, community banks, credit unions, chambers, and other trusted business advisors.

Client need	VYQ response
Suspicious invoice or vendor change	\$500 focused Payment Risk Review
New payee or beneficiary	Evidence review and documented decision brief
BEC or executive impersonation concern	Authority, consistency, urgency, and evidence-gap review
Payment approval uncertainty	Verified / Watch / Hold / Reject status and next actions

How the referral path works

1. The approved partner identifies a client with a legitimate payment-risk concern.
2. The partner shares the VYQ Payment Risk Review page or approved referral link.
3. The client purchases the \$500 review and submits a redacted case directly to BSS Technologies.
4. BSS performs the review and delivers the written decision brief to the client.
5. Referral tracking and compensation, when applicable, are governed by a separate written agreement.

Partner standards

- Never collect or forward passwords, bank credentials, MFA codes, full account numbers, card data, private keys, or full SSNs.
- Never promise prevention, recovery, insurance coverage, legal resolution, or a guaranteed outcome.
- Never represent VYQ OS as a bank, payment processor, law firm, insurer, or law-enforcement service.
- No spam, purchased lists, misleading claims, or unauthorized endorsements.
